13. Advanced Linux Topics
14. High availability and clustering
15. Performance tuning and optimization
16. SELinux and security policies
17. Linux Networking Services
18. Troubleshooting and Debugging

WEEK2-DEVOPS TOOLS IN ONE GO

TOPICS COVERED

1. CICD Jenkins pipelines
2. ARGO CD deployments
3. MAVEN Components
4. JFROG Setup
5. ANSIBLE Integrations
6. DOCKER Management
7. GIT OVERVIEW
8. GITHUB HANDSON DEMO
9. DEVOPS TOOLS Integrations
11. PROMETHEUS Setup
12. GRAFANA HandsOn
13. Deployment Patterns
14. Automations
15. Scaling the system
16. Auto version management
17. SHELL Automations in Jenkins
18. Troubleshooting and Debugging

WEEK3 - DOCKER & KUBERNETES

TOPICS COVERED

1. Introduction to Docker
2. Docker Installation and Setup
3. Docker CLI Commands
4. Docker Images
5. Docker Containers
6. Docker Networking
7. Docker Volumes and Storage
8. Dockerfile and Image Building
9. Docker Compose
10. Docker Registries
12. Docker Security
13. Docker Logs and Debugging
14. Docker HandsOn
11. Introduction to Kubernetes
12. Kubernetes Installation
13. Kubernetes Architecture
14. Kubernetes Objects and Resources
15. Kubernetes Pods
16. Kubernetes Deployments and ReplicaSets
17. Kubernetes Services
18. Kubernetes Volumes and Persistent Storage
9. Kubernetes ConfigMaps and Secrets
10. Kubernetes Networking
12. Kubernetes Scaling and Autoscaling
13. Kubernetes HandsOn

WEEK4-ATS RESUME / JOB PORTALS/MOCK INTERVIEWS IN ONE GO

TOPICS COVERED

1. DevOps Resume Templates
2. Resume Preparation
3. Projects pointers to resume mapping
4. Resume ATS score
5. ATS Websites
6. Linkedin Job hunt
7. Top product companies data
8. Resume tuning for ATS
9. DevOps Keys to be kept in resume
10. Linkedin Hacks
11. Mock Interviews
12. One to one feedback
13. DevOps Job help
14. Referrals hunt
15. Performance as feedback
16. Certificates handover**
17. Final Conclusion
18. Continue with new learnings
